

# Ahmet Kemal Yılmaz

## Computer Engineer

### Experience

#### IT Intern

July 2023 to August 2023 (2 months)

- I worked as an intern at Mavi Retail Textile Company. During this period, I gained significant experience in the field of computer engineering.
- I learned the basic features and operation of physical servers and successfully migrated servers to cloud environments. I worked with security and monitoring tools like Wazuh and Zabbix, gaining knowledge in cybersecurity.
- I practiced Active Directory usage, CyberArk secure identity management. Additionally, I acquired knowledge in ITIL4 fundamental concepts related to service management.

### Education History

#### Bachelor of Computer Engineering Yildiz Technical University

Year of Graduation: 2024

- Member of Yildiz BlockChain Club
- Artificial Intelligence Club Founding Member

### Projects

#### SpAI

- I developed an AI based customer communication assistant.
- We took part in BTM , Alt-Tab Incubation Center, Uretken Akademi.
- I used python, NLP, chatgpt api, whatsapp api etc. technologies.
- I took a break due to lack of resources.
